1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on December 6, 2005 has been entered.

2. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

3. Claims 1-15 are rejected under 35 U.S.C. 103(a) as being unpatentable over The Good Cook literature article. Applicant is referred to paragraph no. 3, Paper No. 032404; paragraph no. 6, Paper No. 082504 and paragraph no. 4, Paper No. 052505.

4. Claims 1-15 are also rejected under 35 U.S.C. 103(a) as being unpatentable over Strong. Applicant is referred to paragraph no. 4, Paper No. 032404; paragraph no. 6, Paper No. 082504 and paragraph no. 4, Paper No. 052505.

5. Applicant's arguments filed December 6, 2005 and the accompanying 132 declaration have been fully considered but they are not persuasive. Many of applicant's remarks have been addressed in paragraph no. 4, Paper No. 052505. The 132 declaration is not persuasive since it is based upon mere conclusions without supporting factual evidence, such as photographic evidence which applicant intends to

submit but which has not yet been received. Further, it is totally expected that thinner slices, as applicant may use, will more readily absorb marinade solution than thicker pieces or parts, as may be present in the applied art.

6. All claims are drawn to the same invention claimed in the application prior to the entry of the submission under 37 CFR 1.114 and could have been finally rejected on the grounds and art of record in the next Office action if they had been entered in the application prior to entry under 37 CFR 1.114. Accordingly, **THIS ACTION IS MADE FINAL** even though it is a first action after the filing of a request for continued examination and the submission under 37 CFR 1.114. See MPEP § 706.07(b).

Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
